528 Contact Adhesive

A general purpose one part polychloroprene rubber/resin contact adhesive which has a high initial grab with an excellent final bond strength and a good temperature resistance. Used for bonding decorative and rigid laminated plastic sheets of PVC of ABS to wood, wood composite boards and metals. Also bonds rigid plastic nosings and coverings. Can be used on suspended or vertical flat surfaces. Also available as Thixotropic (TX), which is faster curing and of a thicker consistency.
