

Fellowes

Why do you need Microban® Anti-bacterial Protection?

In a recent study, researchers found that the average desk has 400 times more bacteria than the average toilet seat. Fellowes Microban® range has the solution - desktop accessories featuring Microban® antibacterial protection. The built-in, Microban® protection fights the growth of potentially harmful bacteria and helps to keep your desktop cleaner. Today's desks are not only our workstations they're often our lunch tables, our footrests, our storage spaces and more. Desktop accessories featuring Microban® antibacterial protection make your workspace cleaner and healthier place to work.
