

**Multi Master  
Milling System**

**The MULTI MASTER Concept**

Multifunction profiling, shouldering, slotting and T-slotting. Unique system based on interchangeable heads which can be mounted on a single end mill body. Rigid and stable clamping of the heads is ensured by the combination of contact surfaces between the head and the body. Allows shoulder milling, slot milling, small surface face milling, profiling, drilling, chamfering, and ramp-down operations.
