

GROUP 525 HAMMERS

Hammers

Club Hammers

Club (or lump) hammers are fully forged and heat treated with flat face and chamfered edges for use with cold chisels, brick bolsters, star drills and masonry nails.

Fibreglass Shaft

With textured slip resistant rubber grip. Shaft and grip combine to dampen the impact transmitted through to the user's hand and wrist. Reduces operator fatigue and the risk of repetitive strain injury (RSI). The high strength of the shaft and head bond make the hammer virtually unbreakable.
