

**Food Safe Penetrating Oil**

Penetrating oil for dismantling, lubricating and cleaning. This odourless oil is tasteless and displaces water leaving a hydrophobic coating to protect surfaces from corrosion. It penetrates threads and crevices to release and lubricate delicate mechanisms, pivot points and sliding surfaces whilst degreasing hard surfaces. Can be used as a light lubricant.

**FDA Compliant. NSF H1 Registered.** Food Safe. Synthetic Translucent. Tasteless water white fluid. Non-Toxic. Anti-corrosive.

**Food Safe Lubricating Oil**

This lubricant is completely clear, odourless and food safe, it contains no mineral hydrocarbons and meets with **FDA** and is **NSF H1** registered. It is a hydrophobic oil and therefore does not take in water, providing a barrier between water condensation and metal surfaces. This versatile lubricant can be used on sliding and rolling element bearing surfaces, metal, wood and plastics. Non-flammable. Non-Toxic. Anti-corrosive. Safe for use at temperatures from -60° to +260°C.

**Food Safe High Tech Grease**

Food safe synthetic PTFE grease is a fully synthetic translucent non melting grease that allows fluid to penetrate into machine parts before setting to a No. 2 rated grease. It protects and lubricates with a non-toxic anti corrosive shield for use on sliding and rolling element bearing surfaces, metal, wood and plastics. Manufactured from non-toxic lubricant ingredients listed by the **FDA** and is **NSF H1** registered. Totally salt or fresh water resistant to be used inside and out on a range of machinery in temperatures ranging from -40°C to +340°C.

**Ambersil Machine Oil FG - General Purpose**

A general purpose lubricant and penetrating oil, for use on food processing equipment where incidental food contact may occur. Based on pharmaceutical grade highly refined white oils.

**NSF H1 registered.** Meets USDA 1998 H1, to be used as a lubricant with incidental food contact. Does not resinify, allowing longer lubrication intervals. Creates an effective water-repellent film. Prevents corrosion. Reduces friction and wear. Contains no silicone. Colourless film. Safe for use on metals, most plastics, painted surfaces and wood. 360° spray for all angle use, even upside down.

Size: 400ml aerosol. Box quantity: 12 cans.

**Ambersil Stainless Steel Cleaner FG**

Water based, foaming cleaner for degreasing and cleaning of stainless steel surfaces. **Registered NSF C1 (N° 138212)** for use in the food industry. Eliminates fingerprints, watermarks, dust and dirt from stainless steel. Provides metal surfaces with a long term protective coating which inhibits staining and contamination. Fitted with a 360 degree spray system for all angle use, even upside down. Suitable for cleaning and protection of metal surfaces against staining and contamination

Box quantity: 12 cans.

**LPS Silicone Lubricant**

Silicone-rich Water-based formula. Colourless and odourless. Ideal for rubber and plastic surfaces. Eliminates sticking, binding and squeaking. Does not contain chlorinated solvents. Non-staining. Meets **FDA** regulation for incidental food contact. **NSF H1** registered #059820 for use in meat and poultry plants.

**Silicone Anti-Stick**

A high purity, highly concentrated silicone lubricant based upon silicones approved by the **FDA** and considered safe for applications where incidental food contact may occur. Lubricant is odourless, tasteless, colourless and chemically inert. Ideal for use where high standards of purity are essential. Suitable as an anti-stick agent on conveyors, labellers, heat sealers and packaging applications. Helps prevent line jams, inhibits adhesive build up on blades and sealers.

**Chain Lubricant FG - With PTFE**

A foaming chain lubricant with added PTFE. Specifically designed to provide convenient, effective lubrication and protection in applications where incidental food contact may occur or in applications where a clean lubricant is preferred. The gentle foaming action assures an excellent penetration and prevents against dripping.

**NSF H1 registered.** Meets USDA 1998 H1 guidelines for use as a lubricant with incidental food contact.

Operating temperature from -15°C to +175°C. Contains PTFE, which helps reduce friction and wear. Virtually odourless and colourless. Controlled application with gentle foaming action. Box quantity: 12 cans.
