

Ambersil Amberclens FG - Foam Cleaner

A heavy duty, biodegradable, water-based all-purpose foam cleaner/degreaser. Specially formulated for use on food processing and packaging equipment. The non-dripping foam ensures longer contact time and improved performance, especially on vertical surfaces. **NSF A1 registered** meets USDA 1998 Readily biodegradable as per OECD 301B. Quickly penetrates, removes grease, oil, grime and tough stains from any washable surface. Stable, non-dripping foam formula - limits over application. Safe on all metals and on plastics if rinsed after application. Box Quantity: 12 cans.

Amberklene FG

Heavy duty, biodegradable industrial cleaner/degreaser. Specially designed for use on food processing and packaging equipment. Authorised for use in inedible product processing, non-processing and exterior areas. The controlled evaporation rate ensures maximum contact time with contamination. **NSF C1 registered**. Meets **USDA 1998 C1** guidelines for use in food industry. High flash point of 40°C. Neutral product, non-staining. Does not contain water. Non-corrosive to metals. May be harmful to some plastics and will soften some paints. Fitted with a 360 degree spray system for all angle use, even upside down. Box Quantity: 12 cans.

Aquasafe FG -Water Based Cleaner/Degreaser

Concentrated biodegradable, industrial strength water-based cleaner/degreaser. For use on food processing and packaging equipment, as a floor and wall cleaner; in inedible product processing, non-processing and exterior areas. A non-flammable, non-abrasive formula to be used in a multitude of cleaning applications. Economical to use. **NSF A1 registered**, meets **USDA 1998 A1** guidelines. Effective in both cold and warm water. Excellent for use in pressure washer, ultrasonic and steam cleaning equipment. Concentrated for convenience and economy. Up to 1:100. dilution. Safe on all metals and plastics, if rinsed after application. Non-flammable. Box quantity: 6 sprays.

400g	LPS-727-1582B	£11.05	£9.28

MOLYSLIP® EP Grease For Food Machinery

Suitable for commercial and industrial applications. Approved for use where incidental contact with foodstuffs may occur. Specially compounded from U.S. FDA listed, acceptable ingredients and NSF H1 registered. It meets USDA, 1998 H1 guidelines for the lubrication and protection of machinery used for the processing and packaging foodstuffs. Non-melt, non-toxic, waterproof, high performance E.P. grease. The special properties of FMG make it suitable for a wide range of applications including anti-friction bearings, slides, gears and guides etc.

SOLENT LUBRICANTS FOR FOOD

Synthetic Grease

The latest generation food-safe grease. Constructed using pure non-toxic synthetic base oils, combined with PTFE and a complex mix of antioxidant and EP packages, making it a versatile tool for use in many applications for many industries. Completely resistant to salt water and high humidity environments. Dielectric and can be used to protect electrical equipment from ingress of water. Lubricates bearings, chains and sliding surfaces including plastic bearings and runners. Has a wide temperature operating range -40°C to 340°C Grease clean food safe lubricant. Non-melting.

100g	SOL-740-6200A	£3.23	£2.84
400ml	-6210B	£8.26	£7.27

Food Safe White Grease

Intended use for lubrication of bearings, slides and all delicate mechanisms used in the food manufacturing/processing industry. Maximum operating temperature 150°C with excellent load carrying capacity and water resistance. FDA Compliant. NSF H1 Registered. Non-toxic.

Pack Size	Order Code	List Price/1	Offer Price/1
400ml	SOL-740-5900A	£4.32	£3.80

Food Safe Silicone Grease

A versatile silicone grease for operation in extremes of high and low temperature. Can also be used on food product applications or where water repellent properties are of prime importance as it offers excellent physical performance and is **NSF H1** registered. Non-melting Water Repellent Odourless Non-toxic Low Volatility High Dielectric. Resistant to Oxidation. Thermally Stable Ozone Resistant Minimal effects on rubbers, plastics and metals Unaltered by UV light.
